

For the purposes of measuring setback distance the roof line and any overhang is also included as part of that setback. Please refer to section 14-7 Definitions of the Mower County Zoning Ordinance which defines how a structure is measured. I have included this reference and included a diagram. Building Line XE: "Building Line" - A line parallel to the street right-of-way line **at any story level of a building** and representing the minimum distance **which all or any part of the building is set back from said right-of-way line.**
