Additional Performance Credit Calculations and Supplemental Information

Describe below the progress made in meeting your program year work plan inspection goals. You must provide quantitative results for each compliance inspection and land application goal listed in your work plan.

High Risk sites: 1. Sites within shoreland, DWSMA, WRAPS, and or 1W1P- the whole county is in a 1W1P, 2 feedlots within shoreland were inspected this year. 2. Sites that have open lot areas without run off control- 17 sites were inspected that had open lots. A MinnFarm was made for Dennis Jax Farm. 3. Sites where there was manure storage construction- no construction to manure atorage areas were performed in Mower county for 2022. Low Risk Sites: 1. With the change in feedlot officers for Mower County in the 2022 year, the low risk sites were not heavily targeted. Although, there were a few feedlots that had no histpry of being inspected and they recived inspections in 2022.
