

MINNESOTA TRANSMISSION OWNERS

October 31, 2025

Re: 2025 Biennial Transmission Projects Report

Dear Recipient:

The Minnesota Transmission Owners, a group of fourteen utilities that own transmission lines in Minnesota, have prepared and filed the 2025 Biennial Transmission Projects Report (Report) with the Minnesota Public Utilities Commission (MPUC).

The Report summarizes the transmission needs that Minnesota utilities foresee for the near future. Utilities are required by state law (Minnesota Statutes § 216B.2425) to file this Report with the MPUC by November 1 of each odd-numbered year.

You are receiving this notice because your name or your organization's name appears on a service list for this matter as required by Minnesota Rules part 7848.1800. If you are a library receiving a hard copy of the Report with this notice, we request that you make the Report available to members of the public who request to review it.

The MPUC has assigned Docket Number E999/M-25-99 to this matter. The MPUC will be soliciting public comments on the Report over the next few weeks. Persons interested in participating in this matter can find various documents, including a full copy of the Report, by going to the MPUC's website at mn.gov/puc, selecting *eDockets* at the top, selecting *Go to eDockets*, entering the Docket # "25-99", and selecting *Search*.

The entire Report and previous years' reports are also available for your review at: www.minnelectrans.com.

If you have any questions or would like to request a printed copy of the Report, you can send an e-mail to: Jason.t.standing@xcelenergy.com.

Thank you,

Minnesota Transmission Owners
